## Activity Name

K2 Cultural Excursion – Exploring Sheung Shui Wai Hakka Architecture

## Activity Objectives

- Children learned about features of traditional Chinese architecture
- They explored the unique styles and cultural aspects of Hakka buildings
- The experience nurtured children's interest in Chinese heritage and conservation awareness

## Activity Overview

As part of the school's 40th anniversary research project, K2 children explored the cultural heritage of their local community. Teachers led the students on a field trip to Sheung Shui Wai, a historic Hakka walled village. Through hands-on activities such as observation, interviews, and sketching, children experienced traditional architectural features and cultural elements firsthand. The visit helped foster their appreciation for Hakka traditions and nurtured early awareness of cultural preservation.
